## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 16-17, 20 and 30-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Welscher et al. 5,436,419, cited by applicant.

Welscher discloses a hydraulic drive device including:

- a casing (34, 12)
- a hydraulic pump (90) in the casing
- a control arm (36) indirectly coupled to the hydraulic pump to control the hydraulic pump fluid flow
- a first switch (in NSS circuit not switch 58) cooperating with the control arm and having an open state and a closed state (Col. 2, lines 7-14)
- a second switch (in BAS circuit not switch 58) cooperating with the control arm and having an open state and a closed state (Co. 4, lines 15-18)

The state of the first switch is indicative of the control arm assuming a first position (Col. 2, lines 7-14), and the state of the second switch is indicative of the control arm assuming a second position (Col. 4, lines 15-18).

Art Unit: 3671

Regarding claims 2-3 and 31, the first position of the control arm corresponds to hydraulic drive device driving in a forward direction and the first switch is in the open state (Col. 2, lines 7-14).

Regarding claims 4 and 32, the second position of the control arm corresponds to the hydraulic drive device driving in the reverse direction (Col. 4, lines 15-18).

Regarding claims 16-17, the first and second switches are mechanically actuated by ball (62).

Regarding claims 20 and 33, a prime mover (the engine) is coupled to the hydraulic drive device.

#### ***Allowable Subject Matter***

3. Claims 40-43 are allowed.

4. Claims 5, 10-12, 15, 21-24, 28, 34-35 and 38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 3671
